Ned Grady

Email: gradyned@gmail.com   Mobile: 07478752474

Full stack developer with a passion for problem solving, forming good relationships with stakeholders and sharing expertise to drive successful outcomes. I have been programming for over 10 years, starting in my spare time at school.

Industry Experience

Insight Investment (Senior) Software Engineer – (October 2022 - present) August 2019 - October 2022

- Part of a product team managing the Compliance technical ecosystem (dotnet core, react, T-SQL, Azure)
- Ownership of my team's CI/CD capabilities (Azure, TeamCity, Octopus, Docker)
- Leading meetings such as sprint demos/other agile ceremonies/knowledge share sessions
- TDD Talisman for the team
- Mentoring in Associate Developer programme

Web Applications UK, Software Engineer – June 2018 - July 2019 & 2016-2017 (Between year 2 and 3 of university, 13 months)

- Enterprise travel software system customizations (C#, VBScript/Classic ASP, T-SQL)
- Remote Database Administration (Sql Server)
- Liaised with clients and provided support/bug fixes (C#, VBScript, T-SQL, JavaScript)
- Ran code clubs, mentored work experience students
- Trusted as part of the release team (manual releases & rollbacks)

Technical Skills C# * T-SQL * JavaScript/Typescript * VBScript * HTML/CSS * C/C++ * PowerShell * Java * Kotlin * SQL Server * Classic ASP * ASP.NET (Full Fat & Core) /MVC * Node.js * React * Git * TeamCity * Octopus * Azure * Docker * Message Queuing * Auth

Technical Philosophy TDD * Stewardship * Pairing * Immutability * Complexity vs readability * Follow principles * Code in natural language

Soft Skills Active Listening & Engagement * Reflection * Honesty & Accountability * Objective & Constructive feedback * Technical Reading & Writing * Collaboration

Education University of Nottingham – Computer Science with Year in Industry, 2014-18 (2:1): Highlighted Modules: Compilers, Computability, Algorithms & Data Structures, C++ Programming, Parallel Programming, Assembler.

Personal

I co-organise [CodeandStuff](#) on Thursday evenings, which is an event for aspiring new developers. I often have follow up one to one sessions with attendees aiming to land their first job.

In my spare time I enjoy keeping my skills up to date or working on personal projects:
